

Information regarding charges for joining a virtual meeting held by telephone conference call.

Virtual meetings convened in insolvency proceedings will be held by telephone conference. This service is provided by an independent third-party organisation.

Neither Kingsbridge Corporate Solutions nor our third-party provider will charge for calls made to these meetings.

Calls to virtual meetings are made to a "03" telephone number. Calls to 03 numbers are included in the bundled minutes offered by any UK landline or mobile network operators. This applies to calls from any type of UK line, including mobiles, landlines and pay-phones.

If calls to landlines are included within your bundled minutes, then your call will be free.

If you do not have any bundled minutes, or exceed your minutes allowance, then calls will be charged by your provider at standard geographic rates (i.e. the same rate as a call to a number beginning 01 or 02).

Note that the above applies to UK phone networks only.

If you are calling from outside the UK, your call will be subject to call charges levied by your phone provider. If you intend to join a virtual meeting from outside the UK, you should check with your phone provider regarding international dialling and any associated costs.

The only charges participants can ever receive for joining a virtual meeting convened by us will be from their own phone provider. Therefore, if you have any questions, we recommend that you speak to your phone provider.
